

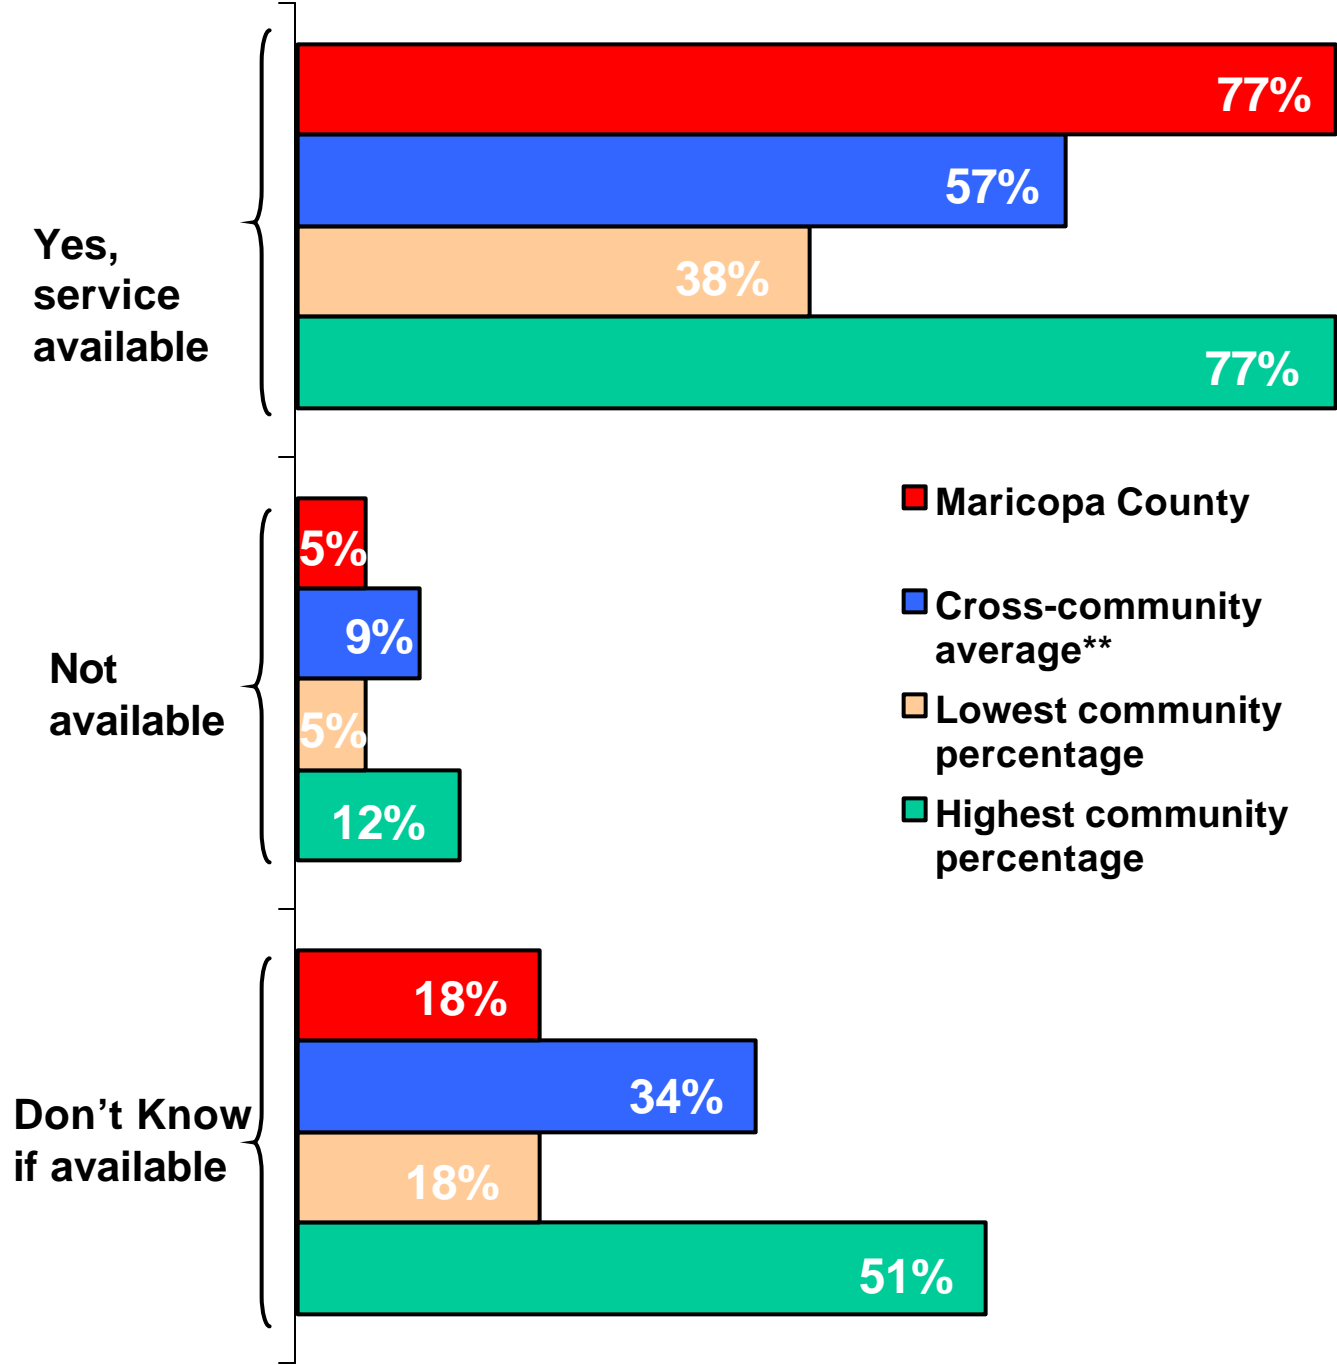

Figure 21.3

ALL-COMMUNITY COMPARISON

Percentage of people age 65+ who know whether palliative care services are available*

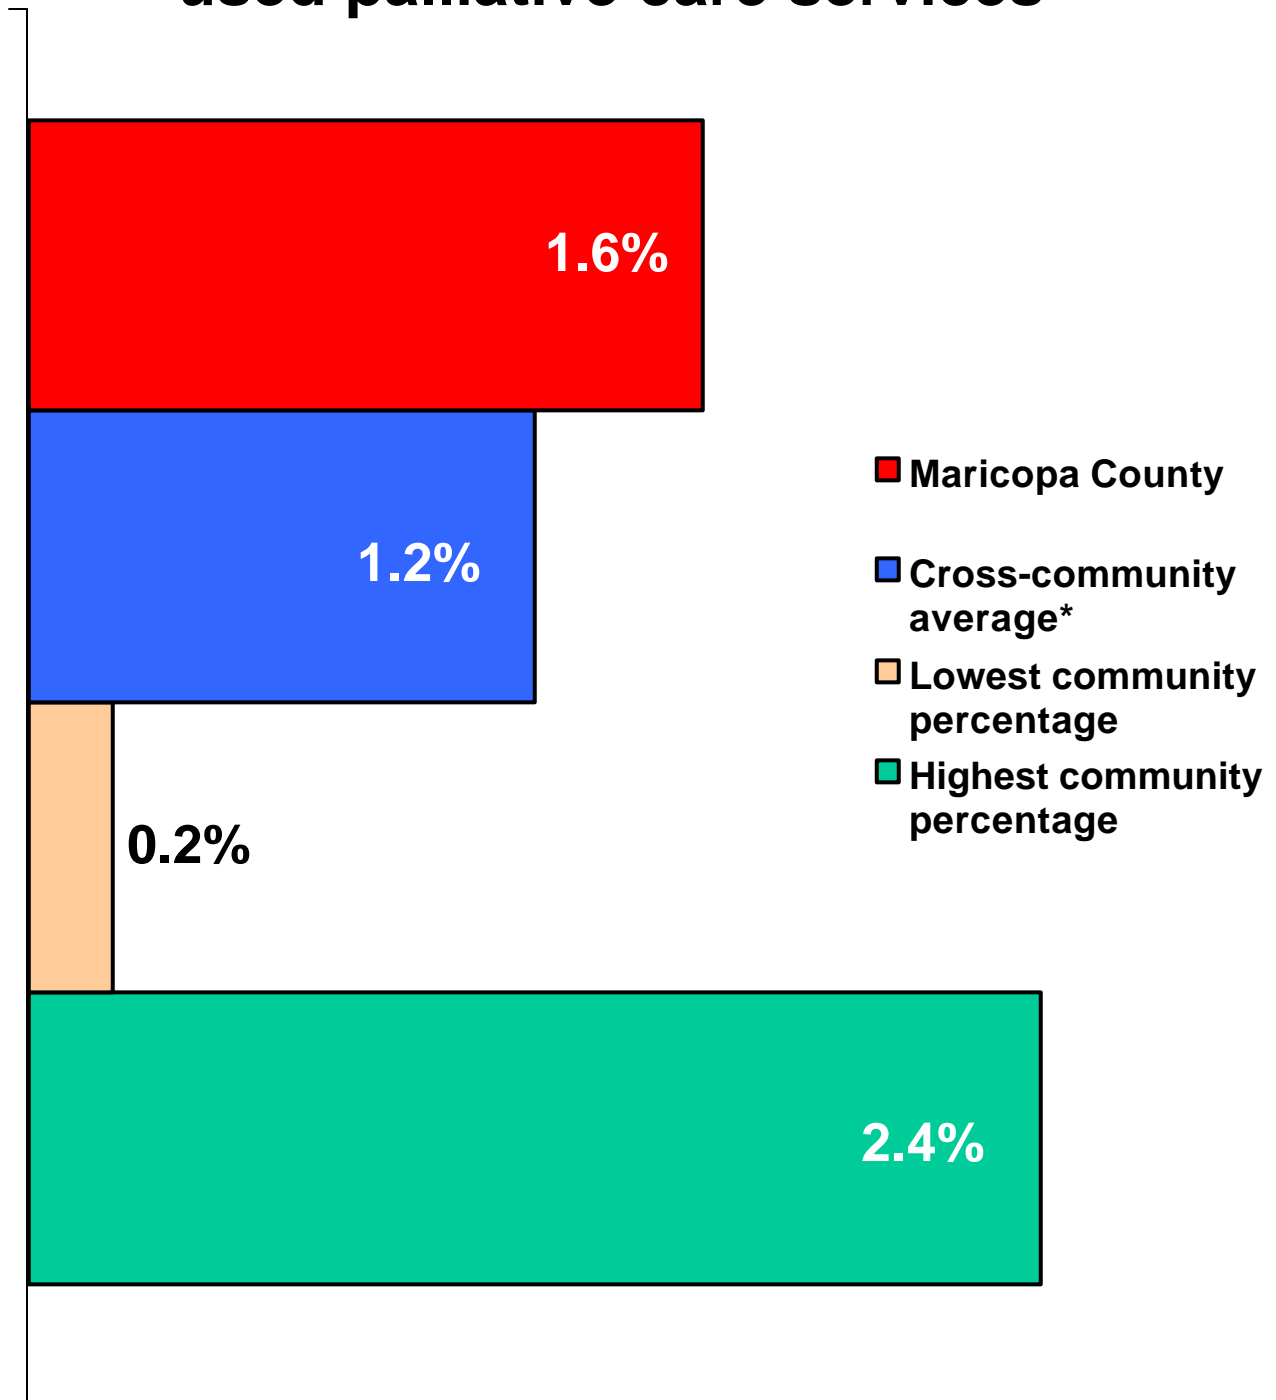

*People were asked whether end of life or hospice care service is available in their area.

** The cross-community average was obtained by calculating the percentage for each separate community, then summing these percentages and dividing by the total number of communities.

Figure 21.4

ALL-COMMUNITY COMPARISON

Percentage of people age 65+ who have used palliative care services*

*People were asked whether they had used end of life or hospice care in the last 12 months.

** The cross-community average was obtained by calculating the percentage for each separate community, then summing these percentages and dividing by the total number of communities.
