

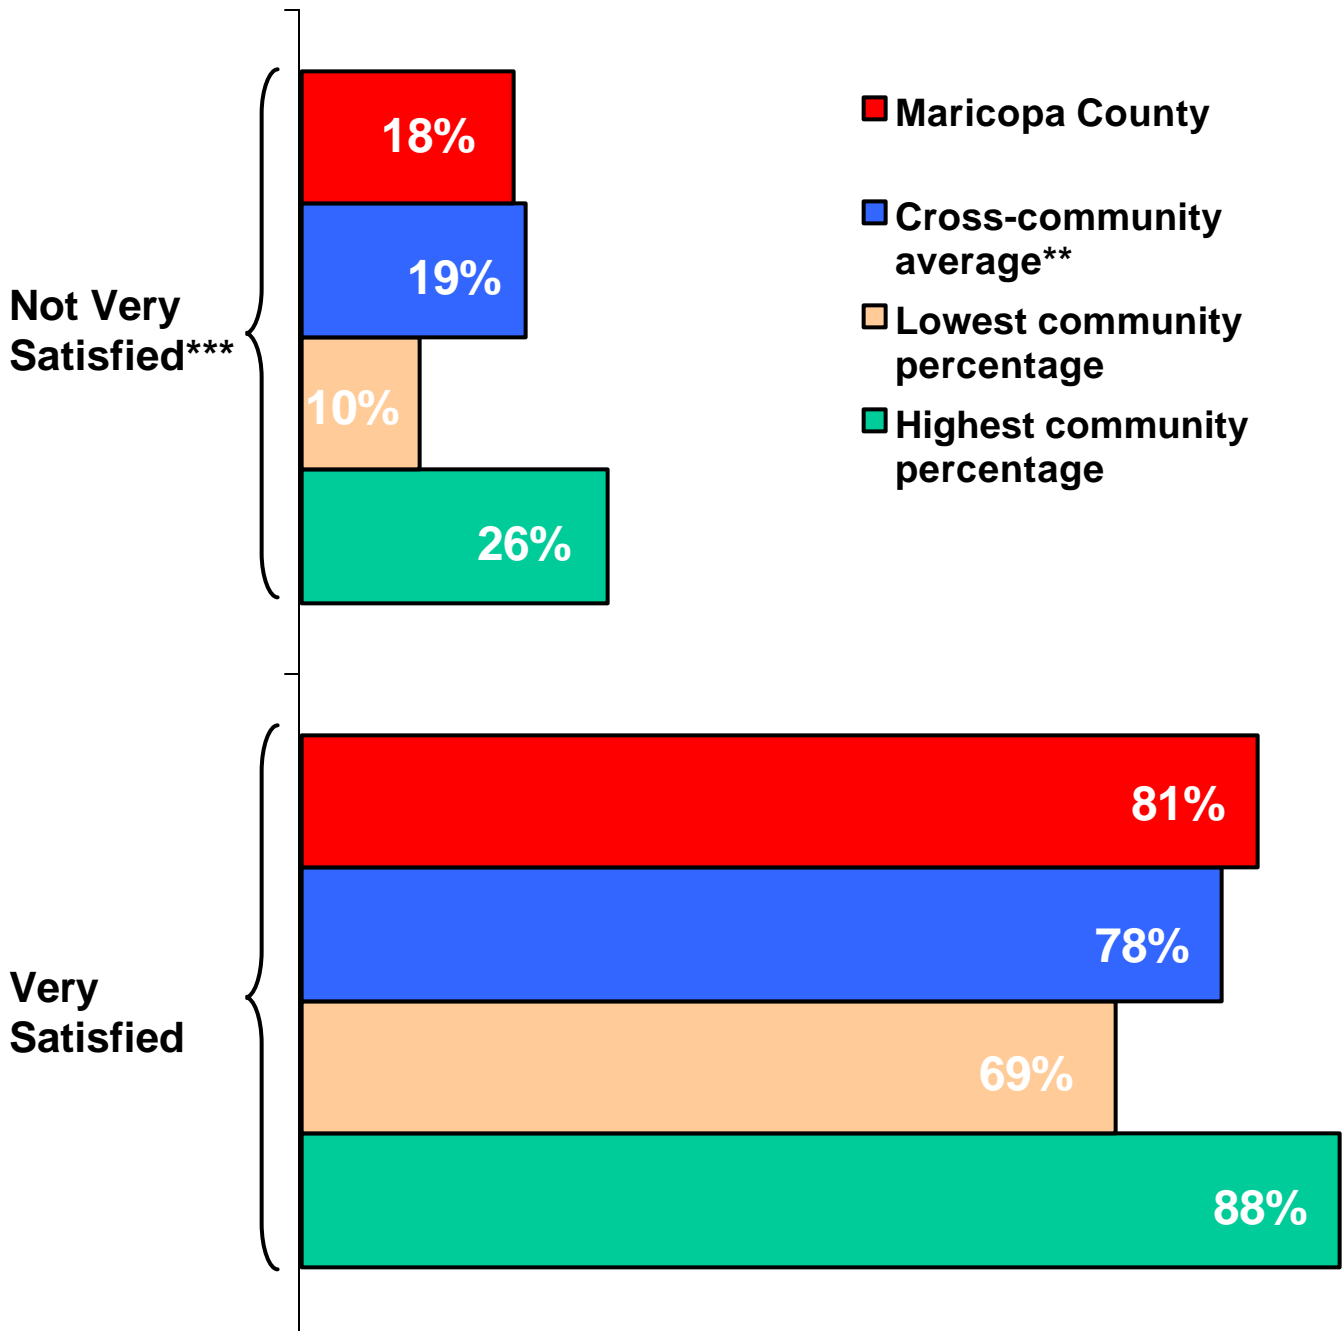

Figure 6.4

ALL-COMMUNITY COMPARISON

Percentage of people age 65+ who are satisfied with the neighborhood as a place to live*

*People were asked how satisfied they are with their neighborhood as a place to live.

** The cross-community average was obtained by calculating the percentage for each separate community, then summing these percentages and dividing by the total number of communities.

***The category "Not very satisfied" includes those who said they were somewhat satisfied, somewhat dissatisfied, or very dissatisfied with their neighborhood.
