 ADVANTAGE
Initiative

In Maricopa County, nearly all (97%) people age 65+ have a place where they usually go when they are sick or need advice about their health. Three percent of people do not have a usual source of care.

Note: Indicator 16 corresponds to Questions 40 and 40a in the AdvantAge Initiative survey questionnaire.

MARICOPA COUNTY

Figure 16.2

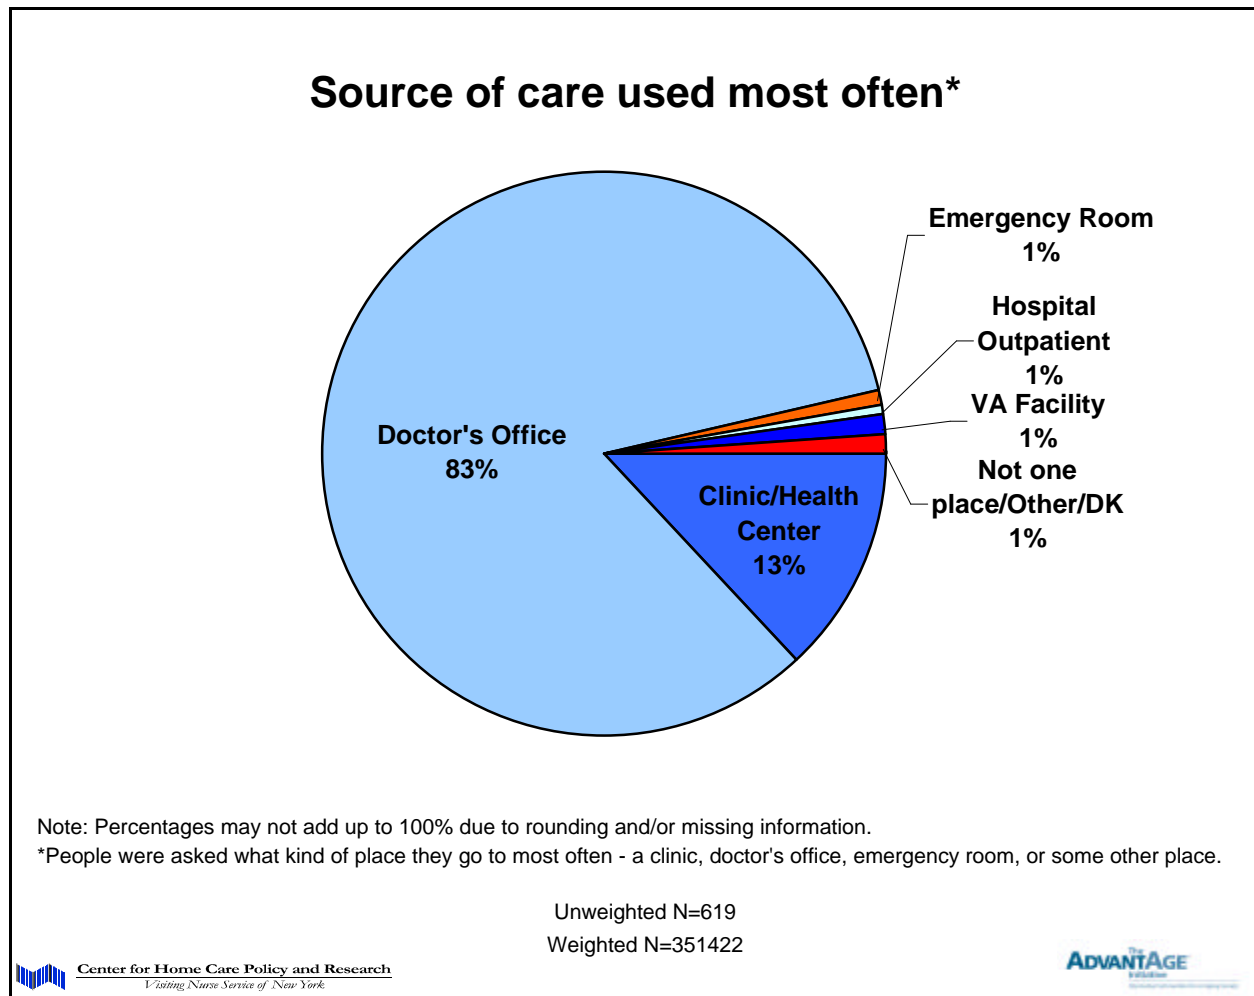

Figure 16.2 displays the sources of care used most often. More than eight of ten (83%) people age 65+ go to a doctor's office, and about one of eight (13%) to a clinic or health center. One percent use a hospital outpatient department, one percent use a Veterans Administration facility, and another one percent a hospital emergency room. One percent of people used more than one place of care, or some other place of care, or they did not know what source they use.
